ZEFIRO CUBE 10 is a portable dust collector with an adjustable arm used for localized suction. An electric fan produces a high airflow for the continuous recovery of fine dust.

Features

- ✓ Compact and portable
- ✓ Electric fan for high airflow
- ✓ Ideal for 24/7 production cycles
- ✓ Powder coated steel construction
- ✓ Large filter surface
- ✓ Geometric cube design for maximum stability
- ✓ Door to access collection tank
- ✓ Integrated cleaning system
- ✓ Adjustable arm for localized suction

Filtration

Primary Filter	Cartridge
Surface Area	108 ft^2 (10 m^2)
Media Class (IEC 60335-2-69)	Antistatic Polyester - Class M
Cleaning System	Manual

Optionals

- Certified HEPA Class H14 (99.995% @ 0.18 µm)
- Earth Grounding
- More Power Sources Available By Request
