

DIRECT EXTRACTION OF DUST FROM DIGITAL CUTTING TABLES

OEM'S CAN RELY ON DELFIN INDUSTRIAL FOR THEIR VACUUM SOLUTIONS. WITH OVER 30 YEARS OF EXPERIENCE AND A VARIETY OF STANDARD AND CUSTOM DESIGNED VACUUM SYSTEMS, DELFIN NEVER STOPS WORKING TO PROVIDE EFFICIENT & INNOVATIVE DUST MITIGATION SOLUTIONS FOR THEIR OEM PARTNERS.

Routers, digital cutting machines and engraving machines are used throughout the signage and advertising industries. The precision cutting of wood, plastic, composites and metal generate fine dust and waste. Delfin Industrial's vacuum solutions capture the dust and waste problem directly at the milling tool origination point.

WHY CHOOSE A DELFIN INDUSTRIAL VACUUM SYSTEM TO COMPLIMENT YOUR DIGITAL FLATBED CUTTER?

- No manual production clean-up
- Safer work environment
- More efficient user experience
- Better cut quality by removing dust
