

Delfin is a global leader in the manufacturing of industrial vacuum equipment, ranging from portable vacuums, central vacuum systems, engineered solutions, pneumatic conveying systems, for industrial cleaning. Our mission is to create value by designing innovative solutions that improve efficiency, safety, and productivity. Our aim is to use our expertise to help our customers to achieve their goals.

A woman with her hair in a bun, wearing a patterned sweater and blue jeans, is using a Delfin backpack vacuum on a carpeted staircase. The vacuum is black and grey with the Delfin logo on the side. She is holding a long, flexible hose that leads to a blue and white cleaning tool on the stairs. The background shows a light blue wall and a white handrail.

PRO HEPA LINE FOR PROFESSIONAL CLEANING

HIGH QUALITY DISTINGUISHING FEATURES

- Individually tested and certified HEPA filters to avoid contamination, preserve air quality and safeguard respiratory health (minimum efficiency: 99.97% at 3 microns).
- Guaranteed safety even when dealing with hazardous dust like asbestos or silica dust.
- Long-lasting motors, rotational molded tanks, large capacity, low sound levels, top quality filtration and compact sizes for easy storage.

VACUUMS FOR WET APPLICATIONS

- PRO HEPA 20S is the only model equipped with a front mounted squeegee. Tested and certified HEPA filter. A reliable liquid shut-off allows the operator to vacuum liquids uninterrupted until the tank is full.
- HV109 is the "pump-out" solution for picking up wet and dry material at the same time. The immersible pump can collect up to 20 gal of water or other noncombustible fluids while simultaneously discharging it up to 100 feet away.

CANISTER AND VACUUMS FOR DRY APPLICATIONS

- Compact and stable for easy transport, even with full tank.
- 3 levels of filtration for the bigger models: polyester filter + spacer sleeve + dacron filter bag.
- Up to 20 gal capacity.
- Reinsertion of filtered and clean air into the environment.
- Low noise level for use in any area without causing inconvenient disturbance.

BACKPACKS FOR EASY CLEANING

- Electric or battery-operated backpack vacuums.
- Ergonomic dorsal HEPA vacuums that guarantee the maximum comfort during cleaning operations.
- Small size, large capacity (6 or 10 quart).
- Practical use for hard-to-reach overhead surfaces but also steps, floors, tiled floors, shelves, narrow areas, high surfaces or ceilings.
